ABOUT THE ISLAND COASTAL ECONOMIC TRUST

1.1 BACKGROUND

The \$50 million Island Coastal Economic Trust (ICET) was created by the Government of British Columbia in 2006 to help diversify the economies of central and northern Vancouver Island and the Sunshine Coast.

ICET funds community driven economic development initiatives in targeted sectors to spark new and sustainable regional economic growth and diversification. These sectors include: forestry, transportation, tourism, mining, small business, energy, agriculture and aquaculture, and economic development.

ICET is guided by a Board of Directors and two Regional Advisory Committees (RACs), which include more than 50 locally elected officials and MLAs and five appointees. This exceptional team of leaders collaborates to set regional priorities and build vital multi-regional networks.

The specific region where the Trust may invest is shown on the map and may be viewed in detail on the ICET's web page at www.islandcoastaltrust.ca

1.2 WHAT WE DO

ICET's mission is to be a partner and catalyst to build a diverse and sustainable Island and Coastal Economy. This mission is primarily achieved through strategic investments in key economic sectors, leveraging new funding and investment to the region, improving community economic development readiness and fostering regional collaboration and planning. Guided by its governing legislation, ICET invests its funds in projects that enhance the region's competitive position in eight key sectors: forestry, transportation, tourism, mining, small business, energy, agriculture and aquaculture and economic development.

ICET PROGRAMS

ICET invests its funds primarily through two core grant programs. The Economic Infrastructure Program supports the development of a wide range of economic development infrastructure projects in targeted sectors. The Economic Development Readiness Program supports the growth of economic development readiness in communities and may be used to develop economic development tools, economic strategies, regional marketing and investment attraction initiatives or for other activities focused on economic growth.

ICET also provides sponsorship funding for a few select regional or provincial events, collaborates on partnership initiatives such as sectoral studies and regional economic development networking opportunities, provides bursaries to support community participation in economic development training and provides economic development internship opportunities to support the participation of younger people in economic development.

1.3 WHO WE ARE

TRUST GOVERNANCE

ICET's governance structure is defined in its legislation, the North Island Coast Development Initiative Trust Act. This arms' length decision making model includes two regional advisory committees made up of local government representatives and MLAs who function as Board Advisors. The Board of Directors is the final decision making voice for the organization and is responsible for strategic planning and operations oversight.

BOARD OF DIRECTORS

ICET is governed by a Board of Directors consisting of 13 directors, 8 of whom are appointed by two Regional Advisory Committees (RACs), representing the Central South Island Region and the North-Island Sunshine Coast Region. The remaining 5 Directors are appointed by BC's Lieutenant Governor in Council.

The Board incorporates best practices into its governance procedures as guided by the Best Practices Guidelines on Governance and Disclosure for Public Sector Organizations.

The Board includes representatives from diverse areas in the ICET region, from its largest community to some of the smallest, as well as from other

urban and rural areas. This diverse Board, complemented by the specific expertise of the provincial appointees, brings an exceptional skill set and wide ranging perspectives to the table. The full Board of Directors meets approximately 7-8 times per year, and its various committees meet 4-8 times per year.

REGIONAL ADVISORY COMMITTEES

The ICET Board is advised by two Regional Advisory Committees comprised of the mayors, Regional District Chairs and Members of the Legislative Assembly from the region. Regional Advisory Committees meet three times a year to review funding applications to the Trust and provide advice to the Board on strategic issues. The Chairs from each of the committees attend Board meetings as ex officio members.

The Regional Advisory Committees play a key role in ICET's operations. Their regional knowledge and ground truth perspective provides the Board with valuable information about local needs and economic environment. The RACs also bring the region's voice to the table in the development of strategy and policy, ensuring that no community is left unheard.

KEY STAFF AND CONTRACTORS

The organization's philosophy, since inception, has been to favour a cost effective and responsive approach to regional funding delivery. The core staffing model is lean, comprised of a Chief Executive Officer, and Project and Corporate Administrator. Finances and investments are managed by a contract Chief Financial Officer and team of accounting and financial professionals. Communications and economic analysis are provided on contract and additional consultants are used for due diligence and other specialized duties on an as-needed basis, in order to provide ICET with the high level expertise needed for the diverse nature of its work.

STRATEGIC PLANNING PROCESS

The legislation governing the Trust (Section 14(1)a of the Act) requires that the directors of the Trust must:

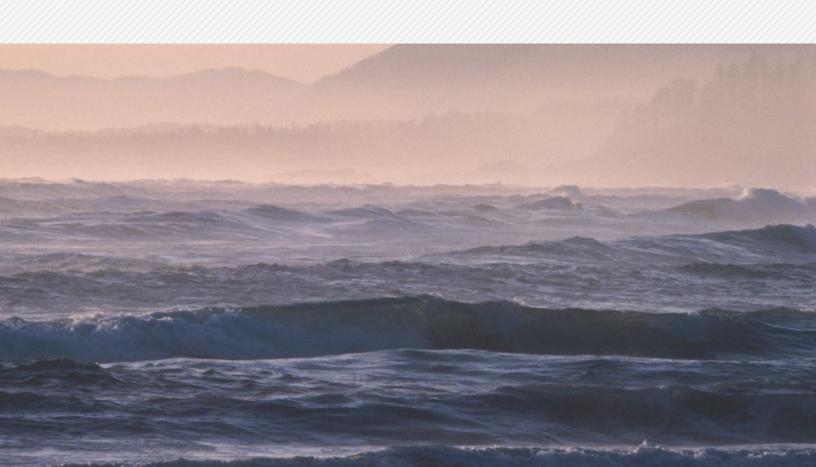

"Each year establish a 3 year strategic plan for the North Island-Coast Development Initiative Trust including goals for each year of the strategic plan relating to the fulfillment of the purposes identified in section 20 in relation to the Regional Account from Section 14(1)a of the Act."

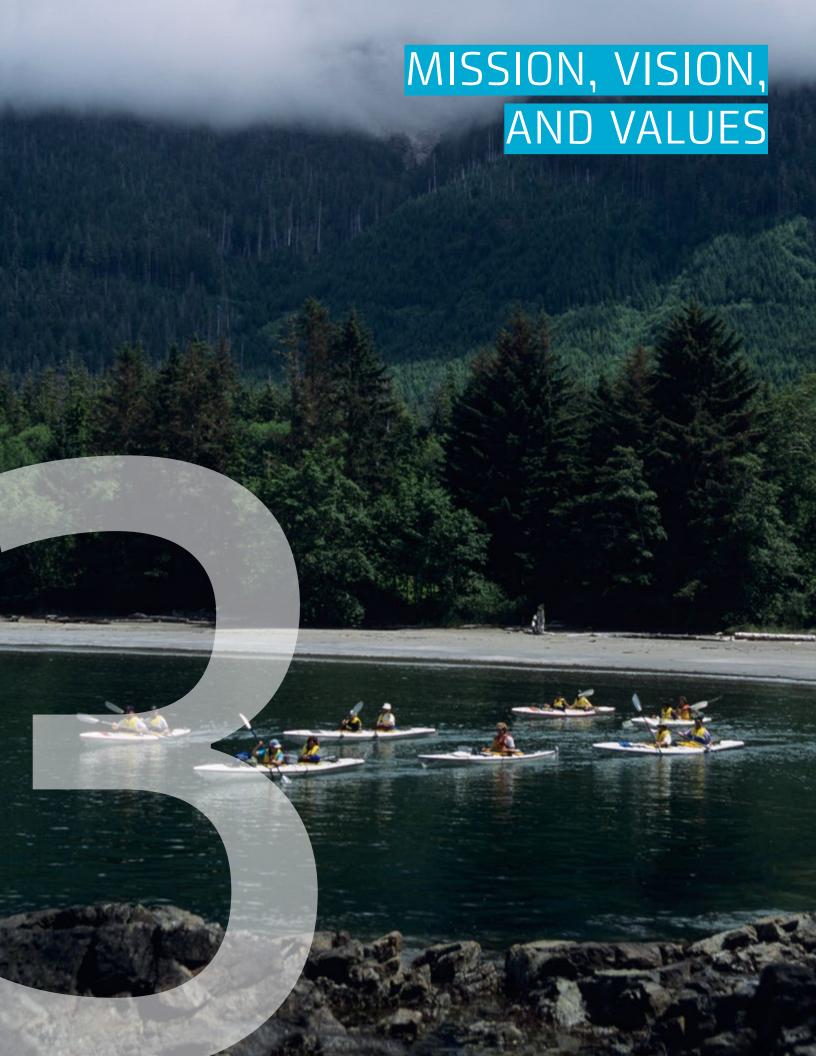

The first ICET strategic plan was developed as a result of a comprehensive stakeholder consultation process and round table discussions held in the winter of 2006 at the Mt. Washington Strategic Planning Conference. This process led to the establishment of the current ICET model of funding disbursement and operations and the first ICET Strategic Plan, published in 2007.

Since that time, the Board has stayed focused on the organization's direction it was given by its stakeholders. The objectives and strategic priorities and tactics are reviewed on an annual basis during a formal strategic planning process.

In January 2016, the Executive Committee and the Board of Directors met for strategy sessions to update the existing strategic plan and prioritize strategies and tactics for the upcoming fiscal year and the general direction for the next two years. The result is the 2016-2018 Strategic Plan.
